Sons-
of-
Abduli
640x3

This chart lists the sons of Saudi King Abdulaziz (Ibn Saud) and indicates their fraternal relationships. Each number along the horizontal axis represents a different mother; names in the same column represent full blood brothers. Sons in the same row were born in the same year. A gray background indicates that the person is deceased. In several cases, dates and relationships are in dispute. Originally published as part of Policy Focus 96, After King Abdullah: Succession in Saudi Arabia.
